

## RENEWS STATE'S NEW GAME LAWS

In his annual report, George H. Geranion of New Haven, president of the Connecticut Fish and Game Protective Association, gives a resume of the game laws passed by the last legislature. His report is in part as follows:

The activities of this association during the past year have been confined largely to legislative matters. There were in the neighborhood of 80 fish and game bills presented to the general assembly at its last session, and your association was represented by members of your legislative committee at all of the hearings which were held from time to time before the fish and game committee. This entailed a considerable personal sacrifice of time on the part of the members of your legislative committee, and I hope their suggestions and amendments will be of service. Most of the bills presented were rejected, as they should have been. Among the laws enacted which are of the greatest interest to our members are the following:

**Rabbits:** Open season Oct. 5 to Dec. 15, both dates inclusive. To be taken only with dog, ferret or trap between Nov. 23 and Dec. 15 (preceding dates named close Dec. 15, therefore Dec. 15 is not open). Ferrets must not be used when rabbits can be tracked on snow. Bag limit is 5 per day and 20 per year. This law is so inconsistent as to dates and so ridiculous as to provisions that its repeal is to be hoped for at the next session.

**Partridge, ruffed grouse and female pheasant:** Closed season until Oct. 8, 1920.

**Bag limit:** Reduced on most game birds.

**Raccoon:** Open season is from Oct. 15 to Jan. 31, both dates inclusive.

**Wild ducks, geese and brant:** Open season from Oct. 1 to Jan. 15, both dates inclusive.

**Non-resident fishing license:** Such a license is required if there is a non-resident license required by the state in which the party resides. License \$2, fee 25 cents.

**Local fishing restrictions:** A general closed season is established on lakes and ponds from Jan. 29 to May 7, both dates inclusive. Provision for special closed seasons by state board of fisheries and game.

**Brook and brown trout:** Bag limit 20 per day.

It is impracticable to go into all details in this report regarding the above named laws and a careful reading of the text of all laws is suggested, also consideration of the federal laws which contain certain restrictions not contained in our state laws. The prevailing law is the one which shortens the open season or lessens the bag limit when both the federal and state laws are considered. It is unfortunate that our state laws do not all name the closed seasons by giving two dates following the words "both dates inclusive."

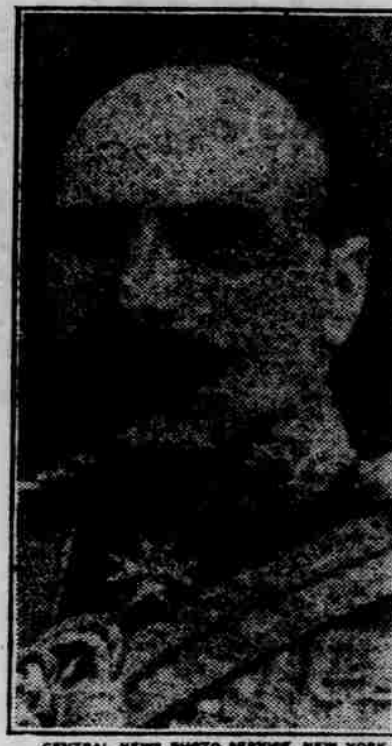

A large number of the laws as passed are not as your committee supposed they would be when presented to the general assembly for action, so far as details are concerned. It has not been customary to open or close a season on the 2d or 14th of a month and yet these provisions appear in the laws as passed last session.

A large maple on the property of William Kinney of Town street, was cut down Tuesday afternoon by Henry Davis and son of the East Side. Until a few years ago this magnificent tree was admired by many, but having gradually decayed it was necessary from time to time to remove the limbs, as heavy winds made it unsafe for pedestrians, and as a final precaution the tree was taken down.

### The Wise Buyer This Year Will Choose A Stove That Burns Any Fuel

With mines in every part of the country either closed or running only at partial capacity, with railroad congestion and car shortages on every hand, making distribution of the coal which has been mined increasingly difficult, it's time for every householder to choose the stove that will burn any available fuel and burn it economically.

Every heater in our large and varied stock has been carefully selected for its ability to extract the fullest possible volume of heat from any fuel — wood, soft coal, coke, screenings, etc. Your home will always be warm and the cost will be small if you choose one of our guaranteed heaters.

### Living Room Furniture That Reflects Real Character

The moment you see the magnificent living room furniture on display here you will agree that it represents one of the finest collections of distinctive new furniture designs ever shown anywhere in the city. ### COMBINATION RANGES

Before the combination range was devised it was necessary to have both a coal and gas range in the kitchen. But a combination range does the work of both and does it better and more economically and its cost is only that of a single range. Come in tomorrow and let us demonstrate what a real convenience and genuine saving these combination ranges actually are. Convenient terms will be arranged.

### HEATERS

No other store in this vicinity can show you the same comprehensive variety of heaters as will be found in our store. Every size and type from the smallest heater to the largest oak models await your selection. Our prices also are based on purchases made before the recent price advances and immediate selection will save you a tidy sum. Convenient credit terms if you desire.

### Has He Found a Cure for Asthma?

Simple Prescription Gives Instant Relief—Makes Breathing Easy.

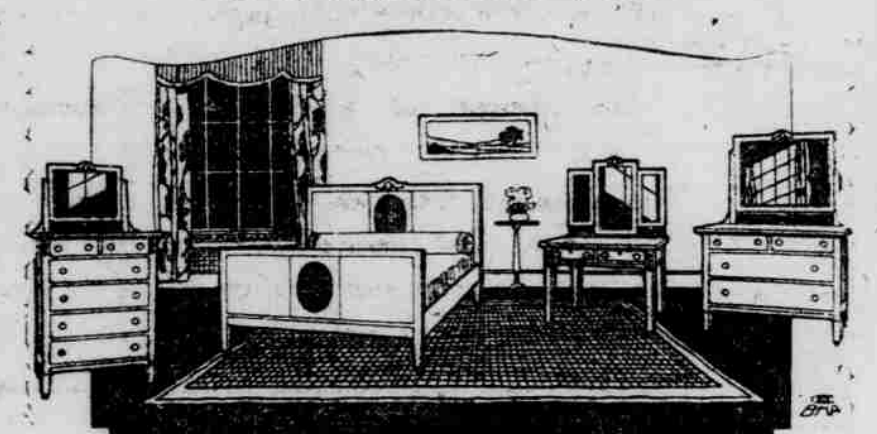

In New England, where bronchial asthma, bronchitis and other diseases of the throat and lungs are so prevalent, remarkably successful results are being reported following the use of a new form of treatment known as Oxidase, a physician's prescription.

Oxidase is a harmless but powerful combination of curative essential oils concentrated and compressed into a small tablet. One of these tablets dissolved before going to bed seems to have the effect of releasing the muscular constriction of the bronchial tubes, opening up the air passages and regulating spasmodic lung action.

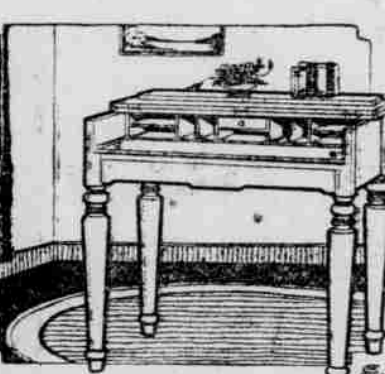

This enables the patient to breathe easily and naturally while lying down and to get a comfortable night's sleep.

So much interest has been shown that local druggists, including Lee & Osgood Co., have secured a small supply and state that they are authorized to refund the money paid for the first package if in any case this new treatment fails to give relief. Oxidase is pleasant to take, contains no harmful, habit-forming drugs and is not expensive. This makes their test an easy matter.
